

# Evaluation - Introduction to Git

2023-11-(13-17)

## General

1. Overall, how would you rate this training event?

[Mer information](#)

2. Training event content and feedback to the lecturers (e.g. topic, materials, exercises, structure): – What did you like best?

7 Svar

ID ↑	Namn	Svar
1	anonymous	materials
2	anonymous	The exercises with the solutions were very handy and relevant when working alone
3	anonymous	Exercises! These were the moments in which I definitely understand the commands learned with the theoretical lectures.. Also the kindness to help of the professors. Thanks!
4	anonymous	The topics covered were very relevant and useful.
5	anonymous	Good material. Online format.
6	anonymous	Materials available on youtube, Q&A document, structure
7	anonymous	That all the lectures were recorded

3. Training event content and feedback to the lecturers (e.g. topic, materials, exercises, structure): –  
Where should we improve?

7 Svar

ID ↑	Namn	Svar
1	anonymous	exercises
2	anonymous	Code on slides are a very weird way of leaning to code, much better when teachers code along
3	anonymous	Maybe to do the course in less days (I had to miss two hours of the course given to PhD obligations)
4	anonymous	Maybe allow a bit more time for exercises
5	anonymous	I thoroughly appreciated the comprehensive coverage of Git topics during the training event. The materials were well-organized and provided a clear structure for understanding the concepts. The choice of exercises was particularly effective in reinforcing key learnings, offering a hands-on approach that enhanced our practical skills. Additionally, the instructors demonstrated a deep understanding of the subject matter, delivering the content in a engaging and accessible manner. Overall, the combination of well-crafted materials, interactive exercises, and knowledgeable instructors made the learning experience exceptionally valuable.
6	anonymous	More exercises. Particularly more simple exercises for the basic commands
7	anonymous	Font size. Sometimes, even when the slide was almost empty, font size was small.

4. Training event organisation (e.g. announcement, registration, ...): – What did you like best? – Where should we improve?

6 Svar

ID ↑	Namn	Svar
1	anonymous	9-12 was a good schedule
2	anonymous	It was perfect! nothing to improve I think
3	anonymous	It was well organised, I like that we received a single email with all relevant info and links, it was easy to find things
4	anonymous	What I liked best was the seamless and timely communication throughout the event, from the initial announcement to the registration process. The clear instructions and accessibility of information made the overall experience efficient and user-friendly. To improve, consider incorporating more interactive elements for participant engagement and perhaps exploring ways to streamline the registration process even further for future event.
5	anonymous	Nothing to change. This was great
6	anonymous	I liked that you provided all the instructions in a single email with all the links and how to prepare to the course.

5. Which future training topics would you like to be provided by the training host(s)?

5 Svar

ID ↑	Namn	Svar
1	anonymous	example of a single person project (scientific paper for instance)
2	anonymous	probably doing the exercises, not only the last day, in small rooms as teamwork
3	anonymous	I would appreciate future training sessions that delve into advanced topics, particularly in the realm of machine learning and deep learning. Inclusion of introductory courses on these subjects would greatly benefit participants, offering a solid foundation for understanding complex algorithms and models
4	anonymous	Maybe more about how to use Git in an actual project, with the workflow. More on solving conflicts.
5	anonymous	SQL basics

6. Would you recommend this training event to others?

[Mer information](#)

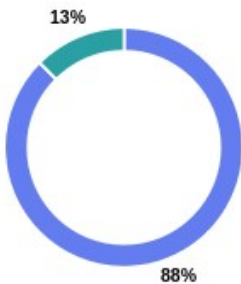

- Yes 8
- No 0

7. Length of course was

[Mer information](#)

- Adequate 7
- Too short 0
- Too long 1

8. In general, depth of content was

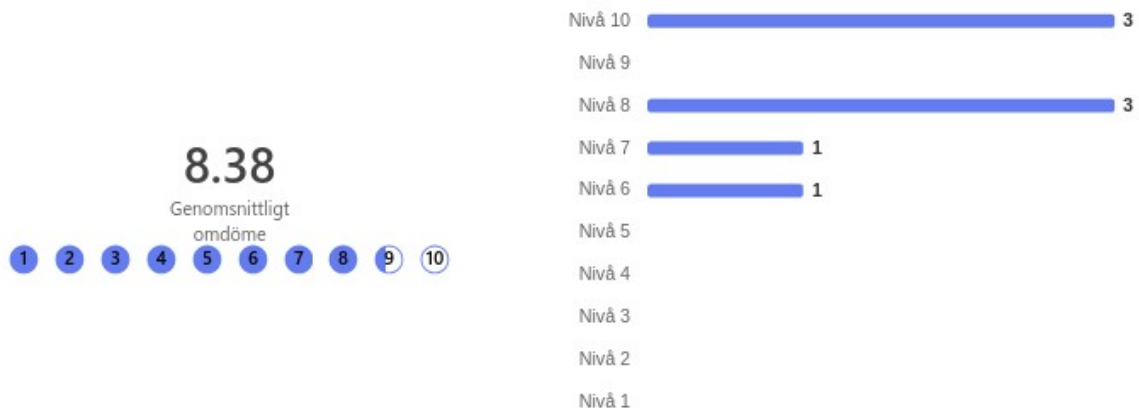

[Mer information](#)

- Adequate 8
- Too superficial 0
- Too profound 0

9. How would you rate the instructors overall teaching performances?

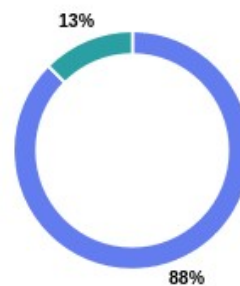

[Mer information](#)

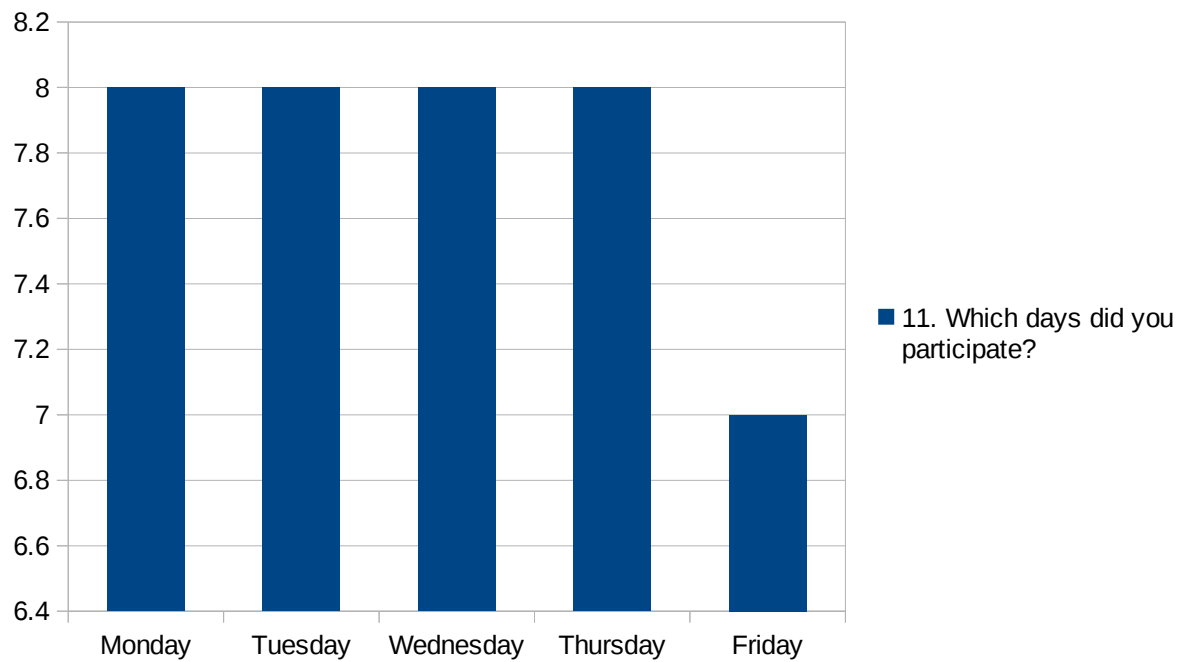

10. Do you feel you achieved your desired learning outcome?

[Mer information](#)

Yes	7
No	0
Not sure	1

12. Did the course meet your expectation?

[Mer information](#)

13. Do you have any additional comments?

6 Svar

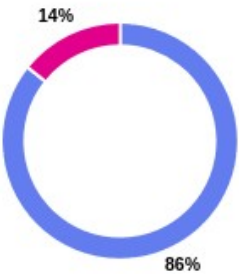

ID ↑	Namn	Svar
1	anonymous	the teachers felt a bit un-enthusiastic
2	anonymous	No, thank you for the course!
3	anonymous	Very useful course, thank you so much!
4	anonymous	Try to explore to have more participants to create more interactive envirnment. Morover, it is good to change the current microsoft word platform for question and answer by HedgeDoc or simailar to that by including the some information ( e.g participant name and adrees, recap of each day, with qqquestion and answers etc also
5	anonymous	I liked the format. Thanks so much for recordings the lectures. This is very helpful
6	anonymous	I did not follow all lessons on real time. But I did watch all the videos.

Day 1: Intro, setup, and motivation

14. The pace was:

[Mer information](#)

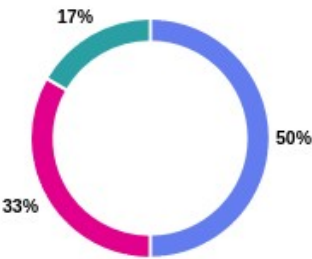

Adequate	6
Too slow	1
Too fast	0
Annat	0

15. Teaching aids used (e.g. slides) were well prepared

[Mer information](#)

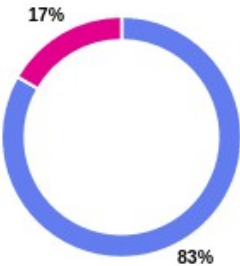

Agree completely	3
Agree	2
No strong feelings	1
Disagree	0
Disagree completely	0

16. Hands-on and demonstrations were

[Mer information](#)

Adequate	5
Too few	1
Too many	0

17. Any other comments or suggestions for this part?

2 Svar

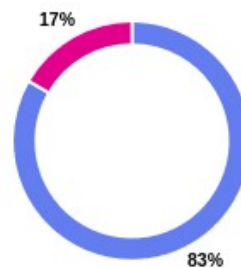

ID ↑	Namn	Svar
1	anonymous	Very satisfied with the course, overall
2	anonymous	Thank you for giving or allowing additional zoom time for the last day to finish the team Git work

## Day 1: Basic commands

18. The pace was:

[Mer information](#)

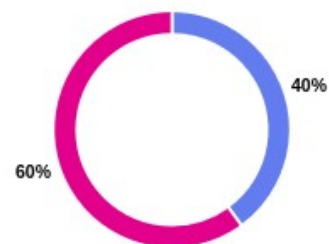

● Adequate	5
● Too slow	1
● Too fast	0
● Annat	0

19. Teaching aids used (e.g. slides) were well prepared

[Mer information](#)

● Agree completely	2
● Agree	3
● No strong feelings	0
● Disagree	0
● Disagree completely	0

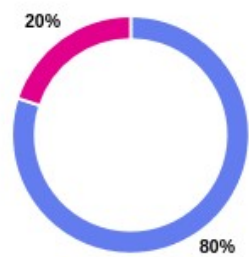

20. Hands-on exercises and demonstrations were

[Mer information](#)

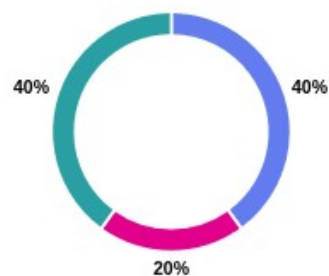

- Adequate 4
- Too few 1
- Too many 0

21. Hands-on exercises and demonstrations were well prepared

[Mer information](#)

- Agree completely 2
- Agree 1
- No strong feelings 2
